

fields

- 10.20–10.40 Pause café
- 10.40–11.30 F. XU, *Spinor equivalence under the field extensions*
- 11.40–12.10 B. KUNYAVSKII, *Cohomological invariants of crystallographic groups*
- 12.30 Déjeuner

- 16.00–16.45 C. BATUT, *Classification of quintic eutactic forms*
- 16.45–17.00 A. M. BERGE, *Bavard's hyperbolic families of symplectic lattices*
- 17.00–17.45 B. HEMKEMEIER, *Classification of integral lattices with large class number*
- 17.50–18.20 G. LACHAUD, *Asymptotically good families of lattices and class field towers (with D. ALQUIE)*
- 19.30 Diner du colloque

● **Vendredi 4 Octobre**

- 09.30–10.10 M. H. KIM, *On positive universal lattices*
- 10.10–10.25 Pause café
- 10.25–10.55 W. PLESKEN, *Cones of positive definite forms*
- 11.00–11.30 N. SKORUPPA, *Majoration rapide pour le kissing number*
- 11.40–12.10 S. GRISHUKHIN, *An upper bound on the covering radius of a lattice*
- 12.30 Déjeuner

- Fin du colloque
- 19.30 Diner
