

Mardi 5 mai

Niels Skoruppa (Bordeaux) 9:00 -- 9:30
"Poisson summation under group action"

Michel Balazard (Bordeaux) 9:35 -- 10:05
"L'approche de Beurling et Nyman pour l'hypothese de Riemann"

Joel Rivat (Lyon) 10:30 -- 11:00
"Sur la theorie metrique des fractions continues."

Nicolas Brisebarre (Bordeaux) 11:05 -- 11:35
"Mesures d'irrationalit'e de $\log 2$ et $\pi/\sqrt{3}$ "

Laurent Habsieger (Bordeaux) 11:40 -- 12:10
"Sur le probl'eme de Newman"

+++++

Henri Cohen (Bordeaux) 15:00 -- 15:30
"Sur le calcul de la constante de Hardy-Littlewood"

Francois Dress (Bordeaux) 15:35 -- 16:05
"Toujours plus de polynomes"

Nik Lygeros (Lyon) 16:15 -- 16:45
"Dix nombres premiers consecutifs en progression arithme'tique"

Marek Wolf (Wroclaw) 16:50 -- 17:20
"Some conjectures on the gaps between consecutive primes"

Mercredi 6 Mai

Bernard Landreau (Bordeaux) 9:00 -- 9:30
"7 373 170 279 850"

Francois Hennecart (Bordeaux) 9:35 -- 10:05
"Densite des sommes de s puissances s-emes"

Luis Gallardo (Brest) 10:30 -- 11:00
"On the restricted Waring's problem for polynomials"

Frederic Marie-Jeanne (Nancy) 11:05 -- 11:35
"Sur la repartition des valeurs de la fonction "nombre des facteurs premiers de $\varphi(n)$ "

Jean-Marc Deshouillers (Bordeaux) 11:40 -- 12:10
"Autour de la conjecture de Goldbach"

+++++
